

KASK's **CLASS SOFT** – *Absolute Fashionable Luxury*

KASK's famous CLASS model is now available in SOFT edition for the customer who will settle for nothing short of absolute best. Made in Italy entirely, CLASS SOFT helmets encompass all of the technological features of the original model, with fashionable luxury elements added: the ears, the chin-strap, and the nape of the neck protector, made in crocodile leather style of the helmet color, plus lining made from soft velvet treated with Polygiene, an innovative technology that uses silver ions to prevent micro-organisms from growing on the surface, protecting the wearer's skin from bacteria.

KASK's CLASS SOFT is a product that reaches beyond perfection among protective gear, as it exemplifies the combination of great comfort and protection, not only from physical impact but also from invisible threats.

The range is available in KASK's traditionally wide selection of colors for all tastes: pearl white, chocolate, steel/black with soft treatment, and soft steel tripod.
